Early basis — every figure counts Early signals only. Confirmed-signal statistics (median return, +10% in 90 days, S&P 500 comparison) do not exist for TONX and are not shown.

Of TON's one Early signal since October 2024, zero confirmed. With no confirmed signals there is no median return, no +10%-within-90-days count, and no S&P 500 comparison to report — those statistics are confirmed-only, and none is estimated from the Early signals.

Weekly closes (adjusted). Signal marks are member content and are not drawn on the free-edition chart.
