Yorkville International Capital Corp. (YICCW)

US-listed · In the scan since Jan 2022

Yorkville has never had a Trifecta signal in the record — not an Early signal, not a confirmed one — since the record began in January 2022. It is scanned after every trading day's close along with the full US-listed universe; so far it has never met the conditions. That's the whole record for this stock: the chart and the basics above, and nothing to grade.

Weekly closes (adjusted).
